

## REPORT OF TRAFFIC ACCIDENT INVOLVING AN AUTONOMOUS VEHICLE

DMV USE ONLY	
AVT NUMBER	
NAME	

**Instructions:** Please print within the spaces and boxes on this form. If you need to provide additional information on a separate piece of paper(s) or you include a copy of any law enforcement agency report, please check the box to indicate "Additional Information Attached."

- Write **unk** (for unknown) or **none** in any space or box when you do not have the information on the other party involved.
- Give insurance information that is complete and which correctly and *fully* identifies the **company** that issued the insurance policy or surety bond, or whether there is a certificate of self-insurance.
- Place the National Association of Insurance Commissioners (NAIC) number for your Insurance or Surety Company in the boxes provided. The NAIC number should be located on the proof of insurance provided by you company or you can contact your insurer for that information.
- Identify any person involved in the accident (driver, passenger, bicyclist, pedestrian, etc) that you saw was injured or complained of bodily injury or know to be deceased.
- Record in the PROPERTY DAMAGE line any damage to telephone poles, fences, street signs, guard post, trees, livestock, dogs, buildings, parked vehicles, etc., including a description of the damage.
- Once you have completed this report, please mail to: Department of Motor Vehicles, Occupational Licensing Branch, P.O. Box 932342, MS: L224, Sacramento, CA 94232-3420

☐ Additional information attached.**SECTION 5 — ACCIDENT DETAILS - DESCRIPTION**☐ Autonomous Mode ☒ Conventional Mode

A Google prototype autonomous vehicle ("Google AV") traveling eastbound in manual mode on El Camino Real in Los Altos was involved in an accident. As the Google AV was completing a lane change in autonomous mode from the far right lane to the middle lane of El Camino Real near the intersection of Showers Drive, a car stopped in traffic in the far left lane of El Camino Real abruptly changed lanes into the middle lane, immediately in front of the Google AV. The Google AV test driver took manual control of the Google AV and quickly merged back into the far right lane to avoid the vehicle. Another vehicle approaching from behind in the right lane of El Camino Real then struck the rear passenger side quarter panel of the Google AV at approximately 23 mph. The Google AV was travelling at approximately 14 mph at the time of the collision. The Google AV sustained minor damage to its rear passenger-side tire, quarter panel, and door. The other vehicle sustained moderate damage to its front bumper and front driver-side fender. There were no injuries reported at the scene by either party.

☐ Additional information attached.**SECTION 6 — CERTIFICATION**

I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

I further certify that I am the authorized Administrator of the program for the above named employer.
